

# BISBEE DAILY REVIEW

VOLUME V.

BISBEE, ARIZONA, SUNDAY MORNING, DECEMBER 15 1901.

NUMBER 170

## The Copper Queen Store.

Christmas gift suggestions from  
our Hardware Department...

### CARVING SETS and SILVER PLATED TABLEWARE.

The carving sets have handles of STAG'S HORN, tipped with Sterling silver. Stag's Horn is the latest fad in handles, and in giving presents one always likes to give the newest things.

Three pieces in a set, carving knife, fork and steel, genuine Stag Horn handles. \$2.75, \$4.50, \$6.00, \$8.25 and \$9.50.  
Game sets, knife and fork, \$1.75.

Rogers 1847 plated tableware is the very best to be had, unless you buy the solid silver. There is a lot of silverware sold under the name of Rogers, but it is not the Rogers of silver plated ware fame. The good old Rogers plate is made under the 1847 brand. It is this kind we quote as follows:

Knives and forks, a dozen, \$4.50.  
Table spoons, a dozen, \$5.00.  
Tea spoons, a dozen, \$2.50.

### SUGGESTIONS FOR MEN'S GIFTS.

At Christmas time it seems so easy to think of presents for everyone—except men. There is no reason why it should be hard to find suitable gifts for them. Here is a list to help you:

Handkerchiefs:	\$5.00 to \$13.50.
White silk, initial and hem-stitched, 50c to \$1.50.	
Silk, hemstitched, colored borders, 50c to 80c.	
Linen, white hemstitched, 2c to 50c.	
Boxes of one-half dozen, \$2.00 to \$3.00 a box.	
Suspenders:	
Cotton web, 50c to \$1.50. Silk and satin, \$1.50 to \$3.50.	
Gloves:	
Knit, jersey or astrachan, 50c to \$1.00.	
Kid and mocha, deers and silk lined, fur top, \$1.00 to \$2.00.	
For boys, all kinds, 35c to \$1.25.	
Cravats:	
All shapes, 50c to \$2.00. The better kind are neatly boxed.	
Jewelry:	
Cuff buttons, cravat pins, shirt studs at our regular jewelry department.	
Smoking Jackets:	
Plain and double faced flannel, \$5.00 to \$10.00.	
Bath and Lounging Robes:	
Both kinds, cotton and wool.	

The list is nowhere near complete, for we've omitted Clothing, Hats—both Dunlap and Stetson—Sweaters, Mackintoshes, Rain Coats, Slippers and any number of other things.

## OLD NICK

wants to come to Bisbee.

SANTA CLAUSVILLE, Iceland, Dec. 12, 1901.  
MR. A. P. SKINNER, Main St., Bisbee Arizona,  
DEAR SIR:—In looking for a location as a distributing point, for my visit to the dear people of Bisbee. I find your store most central and I take the liberty of asking permission to make my annual display in your window.

The articles I have concluded to present this year to your townspeople, consists of good warm Under-clothing, Socks and Shoes, as well as a nice collection of stylish Hats, pretty Shirts, and some of the most fetching Neckwear I have ever seen. I have about concluded to wear one of the ties myself, instead of my fur coat, THEY ARE SO WARM.

I will bring several dozen dress gloves, silk lined, that make you feel like a real Prince.

You know I never used to wear suspenders, but this year I have such pretty silk ones that I couldn't resist the temptation to put a pair on, and do you know I actually feel young again. Did I tell you about the fancy hose I am wearing. My goodness, I am getting too giddy for anything. OH, BUT THEY ARE WARM ONES; and of course I had to don a pair of those sky blue Boston garters you told me about.

Now, Mr. Skinner, I know this is imposing somewhat upon your good nature, but as there is no other location in Bisbee that suits me, I earnestly hope you will grant my request, and I will try and see that you do not regret it.

Very sincerely yours,  
SANTA CLAUS.

P. S.—I would like to arrive between the 25th and 30th if agreeable with you.

## Court of Inquiry Scores Admiral Schley

Washington, D. C., Dec. 14.—The report of the Schley court of inquiry was promulgated by Secretary Long today. There are two reports. Admiral Benham and Admiral Ramsey concur in the first, which is signed by Admiral Dewey also as a matter of form. Admiral Dewey makes a separate report, although he agrees with the findings of facts subscribed to by the others.

The majority report condemns Admiral Schley on eleven points, while Admiral Dewey sustains him in most particulars.

The majority opinion finds, in brief, that Admiral Schley should have proceeded with the utmost dispatch to Cienfuegos and maintained a close blockade; that he should have endeavored to obtain information of the Spanish there, but he should have proceeded to Santiago with dispatch; that he should not have made a retrograde movement; that he should have obeyed the department's orders; that he should have endeavored to capture the Spanish vessels in Santiago; that he did not do his utmost to destroy the Coon; that he caused the squadron to lose distance in the loop of the Brooklyn; that he thereby caused the Texas to back; that he did injustice to Hodgson; that his conduct in the campaign was characterized by violation, dilatoriness and lack of enterprise; that his official reports on the coal were misleading and inaccurate; that his conduct during the battle was self-possessed, and that he encouraged in his own person his subordinate officers and men.

Admiral Dewey, in his report, says

that the passage to Cienfuegos was made with all dispatch, and that in view of his coal supply, the blockade of Cienfuegos was effective; that he allowed the Adula to enter Cienfuegos for information; that his passage to Santiago was with as much dispatch as possible, keeping the squadron together; that the blockade of Santiago was effective, and finally, that he was the senior officer of Santiago, in absolute command, and entitled to all the credit due for the glorious victory which resulted in the total destruction of the Spanish ships.

Washington, Dec. 14.—Discussion among senators today shows that congress is much divided on the question of congressional investigation of the Schley controversy. Many senators are averse to reopening the subject. Nearly all of them declare that the opinion of the admiral of the navy, Dewey, will be accepted as the verdict of the country.

Washington, Dec. 14.—Later news from the Schley inquiry matter shows that the greatest effort was made to bring Admiral Dewey to the point where he would sign a compromise verdict. Dewey is receiving hundreds of complimentary and congratulatory telegrams for his minority report, which declares for Schley. They come from all sorts of people, Democrats and Republicans alike. It is now known that the country has to thank Ex President McKinley for the appointment of Admiral Dewey at the head of the board of inquiry, which was done against the wishes and desires of the navy department.

### DISTRICT COURT.

Johnson Convicted of the Naco Hold Up.

Numerous Indictments Returned against—Trial of Rodriguez for Robbery

TOMBSTONE, Dec. 13, 1901.

The jury in the Sidney Johnson case, upon which the verdict was rendered yesterday morning after the jury had been out all night and still ten o'clock in the morning arriving at a verdict, were divided in nearly the same proportion from the first ballot taken to the last one. The jury retired for deliberation about 4:45 p. m. on Friday and at 4:45 the first ballot was taken, resulting in showing a decision of eight for conviction and four for acquittal. After fifteen minutes of argument another ballot was taken, with the same result. On the third ballot, about 7 or 8 o'clock, the vote was 9 to 3, the nine jurors favoring conviction. The fourth ballot at half-past 8 showed no change. The jury went to bed about 10 o'clock to have a sleep over the matter, and the fifth ballot showed that a night's rest and a good breakfast had not affected the opinions of the jurors, since it was taken at fifteen minutes past 8 in the morning and the tally again showed 9 to 3. It was not until nearly 10 o'clock that an agreement of guilty, with a recommendation for mercy, was arrived at.

The following were arraigned on indictments Friday, viz: Thomas Hudson, assault with intent to kill; Thos. Wilson, same charge. This case arose out of a shooting affray on the Opera Club saloon a few months ago. Robert Winders, robbery; Dolores Gallego, assault with intent to commit murder; James Eggle, assault with deadly weapon; Jesus Brugas, burglary, indictment set aside on motion of district attorney and case resubmitted to grand jury. In all the above cases the statutory time was taken to plead.

The following defendants were arraigned to plead to indictments: Pabollino Fuentes, uttering forged check, plea not guilty; F. W. Goodbody appointed attorney for defense.

Flores, Valencia and Garcia, jointly indicted for burglary, plea of not guilty; S. A. D. Upton appointed attorney.

Frank Rutledge, assault with deadly weapon, plea of not guilty; G. W. Swain, attorney.

Inez Lopez, grand larceny, plea of not guilty; C. T. Clark, attorney.

The case of Apollinar Rodriguez, robbery, was called and defendant placed on trial, the following named composing the jury: George Clawson, E. G. Adams, Gus. Hickey, Jesus Pacheco, Dan Hoehs, R. A. Camada, L. S. Burnett, O. B. Stein, Gas. Gotschalk, T. J. Lyon, William Jones and George M. Heney.

J. M. O'Connell attorney for Rodriguez.

District Attorney Land introduced as witnesses for the prosecution R. Davis and Mat. McDonald. Davis was

the officer who arrested Rodriguez and McDonald the man who was robbed.

McDonald testified that one night, while partially intoxicated, he had fallen asleep when sitting on a bench in front of the cigar store of Dan Hankin's, in Bisbee, and on awaking, his watch was missing. He identified the taking of the watch from his person. The evidence being closed, attorney O'Connell asked that the case be dismissed. This was refused and the case proceeded to argument. Mr. Land spoke briefly, being apparently confident of securing a verdict of guilty. Mr. O'Connell in a short, unimpassioned talk called attention to the fact that the crime of robbery had in no degree been proven, yet that a special crime must be considered proven by the evidence before the jury or they must acquit the defendant. The jury retired in charge of Bailiff Johnson, and in the course of half an hour returned a verdict of not guilty and defendant was ordered discharged.

C. B. Stein, who has been foreman of the jury in the Rodriguez case, was upon his application excused from duty as a trial juror till Monday, Dec. 16.

Case of Andrew Johnson, charged with the shooting of George Bernard, was continued till Saturday at the request of the District Attorney. Smith Turner, charged with assault and murder, was placed on trial. Neale and Goodbody appearing as attorneys for the defense. Turner is the young black driver, who on June 3rd, cut Del Wilcox. The affray occurred in the stable of R. F. Graham & Co., in Bisbee, a full account of which appeared in the REVIEW of the following morning. At that time it was thought that Wilson was very seriously wounded, and, perhaps, fatally so, but he recovered within a few days under the care of Dr. Willard. Several witnesses were introduced on the part of the prosecution, which was conducted by Charles Bowman, assistant to the District Attorney. The prisoner testified in his own behalf. His testimony did not differ materially from that offered by the prosecution, excepting that he stated that Wilson had struck him twice before he cut him. Turner's evidence ended the testimony.

The jury was out about two hours and returned a verdict of simple assault.

Upon the statement of counsel for Turner that he waived the statutory time for receiving sentence, the court after some deliberation sentenced the prisoner to imprisonment for three months in the county jail. Turner seemed quite satisfied with this result.

The names of the jury are: H. E. Gardner, G. C. Ballinger, W. G. Goodman, G. W. Allaire, Lewis Hunt, Ed. Carlson, E. C. Doll, W. Allison, Arthur L. Armstrong, E. C. Aston, Jesse Jackson and Hood Porter; Lewis Hunt, foreman.

In the case of J. H. Norton & Co. vs. Buck Horn Basin Mining Company judgment was entered by consent in favor of plaintiff for \$2,358.81, as prayed for in complaint. Stay of execution was granted for six months from date.

SATURDAY MORNING PROCEEDINGS  
It was cold this morning and everybody was tardy in reaching the court

room. However, the court opened but a few minutes late and proceeded to business at once. Several persons were arraigned to plead to indictments, all of whom pleaded not guilty and case were set for trial, among them was Tom Hudspeth's case, which was set for trial next Thursday, Dec. 19.

Case of Andrew Griffin, charged with murder, was placed on trial and jury is being examined as to their qualifications as jurors, at the hour for departure of the Bisbee mail.

### NO CHARGES FILED

Frank Hereford Says that No Charges Were Filed Against Judge Davis

Frank Hereford, one of the most prominent members of the Tucson bar, was here on Thursday to defend Wiley Morgan, but since that case was continued till June next Mr. Hereford returned to Tucson at once. However, during his short stay the REVIEW representative had an opportunity of interviewing him briefly, of which opportunity the REVIEW man was glad to avail himself. Mr. Hereford is always complaisant when approached by newspaper men, but when told of the special object of the proposed inquiry he became even unusually so, since what the REVIEW wanted to learn was the true inwardness of the matter of the alleged filing of charges in Washington against Judge George R. Davis of this judicial district. The citizen recently published what purported to be a telegram from Washington, in which it was stated that such charges had been filed. Mr. Hereford stated that the publishing of such a statement was by no means convincing to his mind that the statement was true. Of one thing, however, he was thoroughly convinced, and that was that there could have been no possible ground upon which any charges against Judge Davis could have been based, and he was certain that in saying this he was merely voicing the sentiment of the entire bar of Tucson.

### BISBEE TOWNSITE Surveyor General's Office.

Probate Judge Bostwick, of Tombstone, has received the following letter from the office of the General Land office at Tucson:

Tucson, Arizona, Dec. 12, 1901.  
Judge C. R. Bostwick,  
Tombstone, Arizona.  
Sir:—The work on the Bisbee townsites will be completed tonight. I have asked for an examiner to make the field examination, and hope he will arrive at an early date. The commissioner has promised me one at the earliest day. Respectfully,

HUGH PRICE,

U. S. Survey General.

The Probate Judge has taken up the work of securing a townsites patent for Bisbee, as unfinished business, acting on an old petition he filed on file in his office when he assumed his official duties on January 1 last.

By this means the question for title to property in this community will be decided, as the Probate Judge is authorized by law to hear testimony and render decisions. The REVIEW had hoped that the question of permanent title to property in Bisbee would be settled by an incorporated form of government, at a lesser expense than under the present proposed arrangement.

### Brick Making Begins at Benson.

The brick manufacturing establishment erected by the Arizona Clay Manufacturing company at Benson, was started this morning for the purpose of giving the machinery, which is all new, a trial. This plant for the manufacture of brick is of the most modern and substantial build and has a capacity of 25,000 to 30,000 brick per day. The plant was installed by Mr. A. D. Barnhardt, who was in charge when a representative of the REVIEW visited the works this morning, accompanied by William Shilliam, of Benson. It will probably be several days before all the machinery is in perfect working order, as practically all the help is yet inexperienced in handling it, although the brick turned out this morning were of excellent quality. Within a few days at most the factory will be turning out brick at its full capacity. The clay used is unlimited and of superior quality for the purpose used.

Benson people are feeling much elated over the starting of this new enterprise, which promises to add much to the business of the town.

### Roosevelt Don't Want Bonds.

Washington, Dec. 14.—The President this afternoon definitely decided to decline the Carnegie gift of ten million dollars worth of Steel bonds for the cause of education. If Carnegie turns the bonds into cash the gift will be accepted.

### LA CANANEA

The Great Copper Camp—Over 5000 Men on the Pay Roll

Ex-United States Marshal Wm. M. Griffith has returned to Tucson from La Cananea, where he spent some time looking over and through the big copper mines of the Greene Consolidated Copper company.

Mr. Griffith stated to a representative of the Star that it was the most wonderful mine he had ever seen, and he doubted if it was equaled elsewhere in the world. The volume of ore seems to be inexhaustible, and the new strike recently made is immense in size and a marvel of richness.

There are three smelters, one having a capacity of 250 tons, another 300 tons, and the third 350 tons. A fourth smelter of 400 tons capacity, has just been completed, and others will be constructed as fast as they can be put on the ground. Only the highest grade ore is being smelted.

There are over 5000 men on the pay roll. Last pay day over \$290,000 was paid for labor. This pay day over \$300,000 will be paid. This large force includes those employed in the construction of the railroad, which is now within fourteen miles of the camp. The grading is completed and the track would have been laid, but the steel rails have been delayed. It is expected that the track will be completed to La Cananea on or before January 1 next.

The new town is located a mile distant from the smelters, and is growing rapidly. Over \$20,000 has thus far been realized from the sale of lots, and all who buy must build at once or forfeit their lots.

The population of Cananea is estimated at 7,000, mostly American. All kinds of businesses are booming. There are many Tucson people in the swim.

Mr. Griffith says the camp, the mines and the business beat anything he has ever seen, especially is this true of the mines.

### Mining News

Prospects at the Copper Glance are looking fine, said an official of the company in the Solomon Springs section.

Our ground is a good deal softer than it was, and we are now in lime and iron and it is much easier and cheaper to mine in than the hard conglomerate. We have also been very much encouraged by cutting several stringers of green carbonate ore. These stringers are the best indication we have that we are in the neighborhood of a deposit, and in due time we feel sure we shall strike the body of ore that we are after. We are progressing very nicely with shaft No. 2. We are still in hard ground and do not expect to get through the conglomerate for some time yet. Taking everything as it comes we are fully satisfied with the work and progress we are making.

The Bisbee Consolidated has erected a dwelling house and blacksmith shop for the use of their employees, and they are hauling lumber out for another dwelling. This company now has six men at work and have struck several small stringers of ore in their shaft called the Copper Boy, which shows up very well. Soon after the beginning of the new year a larger force will be put at work and sinking with a steam hoist begun on their deepest shaft, which is now down nearly 100 feet and shows good indications of finding ore.

Gene Snyder, foreman of the Huschua Consolidated Development company, came in yesterday from the mines to get several more miners for the company, and reported everything progressing very satisfactorily. We have a body of ore in one of our shafts that extends eight feet from wall to wall, said Mr. Snyder, and I never saw such a bright outlook for the making of a big mine as that which we have in ours. The ledge has been widening for the past two weeks and we are now in a good body of ore that will average \$50 in gold per ton. Our mill, said Mr. Snyder, is undergoing repairs, and we are putting in new rolls and concentrators and hope to have our additions in good shape before Christmas.

### TOO RICH TO MARRY.

"Too Rich to Marry" is the first play wherein Dinkard life is portrayed that has ever been on the stage. The New York cast coming here. Opera House soon.

### SEVERAL LIVES LOST.

Intense Cold Weather Prevailing in Indiana and the Northwest.

St. Paul, Minn., Dec. 14.—The weather has been bitterly cold today. The thermometer registered twenty-five degrees below zero at 5 o'clock, and thirty-five below one hundred miles northwest of here. This morning Joseph Sulzger, while walking, fell to the ground and was frozen stiff within forty rods of his house. Reports about here show intense cold weather.

Lacrosse, Wis., Dec. 14.—The river entirely closed this morning. The thermometer registered twenty-six below zero. Two deaths are reported.

Cheyenne, Wyo., Dec. 14.—Ten lives were lost in this week's Wyoming blizzard. Bodies of five sheep herders were recovered this afternoon.

Terre Haute, Ind., Dec. 14.—Wright Fisher and Dr. Jordan, of Vincennes, while riding in a buggy this morning were frozen to death. They were found on the road stiff corpses. It is stated that both men were intoxicated when last seen.

### Prisoner Jumps from Moving Train

Yuma, Ariz., Dec. 13.—A somewhat notorious prisoner known as Rev. Joseph Anderson, who was arrested in Phoenix a week ago at the instance of the authorities of the state of California, escaped from the Southern Pacific train Tuesday morning. He was under the charge of a deputy sheriff of Santa Barbara county, California. The prisoner was handcuffed at the time he made the leap from the moving train.

Officers Nesh and Martinez of the city, who were with under sheriff Behan in the famous pursuit of Hale and Levin, took the trail by daylight and by evening captured him.

The prisoner is wanted in California for issuing bogus checks and is a notorious criminal. While in Phoenix he was in the guise of a preacher and escaped.

### Gompers Re-elected.

Scranton, Pa., Dec. 14.—Samuel Gompers was this afternoon re-elected president of the American Federation of Labor. James Duncan, of Boston, was re-elected vice-president.

### British National Anthem.

London, Dec. 14.—In official circles revision is now being made of the national anthem and orders have been issued that the words "God Save Our Gracious King" are to be changed to "God Save Our Lord, the King."

### The El Paso Collectorship.

Washington advices say that President Roosevelt has decided to appoint Pat Garrett, of Las Cruces, New Mexico, to the office of collector of customs at El Paso. Pat Garrett became famous several years ago while sheriff of Dona Ana county, in hunting down the murderers of Col. Fountain and his son. It seems that the President has in this case not only turned down the Republican machine, but the entire state of Texas, going to New Mexico for a man for this Texas office. The appointment is credited to the efforts of Delegate Rodney, of New Mexico.
